

Spring/Summer/Fall Co-op or Intern

Come join our growing team!

Cytrellis hires co-ops and interns throughout the year to support our product development activities and to give students industry based experiential education opportunities. These are full time, paid positions, which work collaboratively with our talented R&D team. The positions are available beginning in January and continue throughout the year.

Cytrellis is looking for strong, creative, self-motivated and hands-on engineers with an interest in medical device product development. Engineers will be integral to the development of our Company's platform technology and first-of-a-kind products.

Position Description:

In this position, you will be responsible for supporting the development of our highly integrated electro-mechanical platform technologies. You will support the mechanical design and functional testing of our clinical stage product and commercial product concepts. This position requires collaboration and the ability to work in a cross-functional environment.

Qualifications:

- Candidate must be enrolled in an accredited college or university, pursuing a Bachelor's or Master's degree in Mechanical, Electromechanical, Biomechanical, or Biomedical Engineering

To be considered for this opportunity, please send your resume to careers@cytrellis.com
